AIRWAY HEIGHTS CITY OF

Airway, WA | PWSID: WA5300650 | Population served: 9,489

Based on EPA UCMR 5 testing data (2023-2025) | Report generated November 25, 2026

B

PFAS detected below federal limits

The EPA set enforceable limits for six PFAS compounds in April 2024. Grade reflects the worst single compound result.

Findings

Compound	Detected (ppt)	EPA Limit (ppt)	Ratio	Status
PFHxS	3.2	10.0	0.32	Below limit
PFBA	78.7	-	-	No federal limit
PFHxA	22.9	-	-	No federal limit
PFPeA	136.5	-	-	No federal limit

What This Means

Summary Airway Heights' municipal water system earned a B grade, indicating that detected PFAS levels are below federal limits but that contamination is present in the water supply. No compounds were found above their respective EPA maximum contaminant levels. The most notable regulated compound detected, PFHxS, came in at 3.

What You Can Do

- Request your utility's full Consumer Confidence Report (CCR) for additional water quality data
- Consider an NSF 53 (pitcher) or NSF 58 (reverse osmosis) certified filter if PFAS were detected
- Attend your local water board or city council meeting to ask about treatment plans
